**Services At
Catholic Church**

Impressive Ceremony Of Dedicating New Edifice--Large Choir To Assist.

Services dedicating St. Mary's Catholic church, situated at the corner of Harrison avenue and Fifteenth street, will be held tomorrow morning at 10 o'clock. Archbishop Christie, the eminent Catholic prelate, will be present and will conduct the services, assisted by Father Walters of this city and a visiting father from abroad. After the blessing of the edifice, both exterior and interior high mass will be held. The choir will consist of a chorus of over 30 voices, and the music for the occasion will be Farmer's mass in B flat. Besides the mass solos will be sung by Mrs. J. T. Ross and Miss Kathryn Shively. Mrs. Ross will sing "Ave Maria" as an offertory.

Following are the members of the choir: Soprano--Mesdames J. T. Ross, J. O. O'Connell, C. E. Foster and J. McCormick; Misses Rahles, Mikkelsen, Katie Gilmore, Katie O'Connor, Nellie Brooks, Shively and Madge Sovey.

Altos--Mrs. Barry, Misses Dealey, Sinnott and Bessie O'Connor.

Tenors--Messrs. J. C. McCue, T. D. Ferguson, James Johnson and Belo Johnson.

Bass--Messrs. Richard A. Cearn, T. L. Hall and Lester Bussey.

Soloists--Mrs. Ross, Mrs. O'Connell, Miss Shively, Miss Sovey, Messrs. McCue, Ferguson and Cearn.

Director--Mrs. Minnie Brooks. Organist, Mrs. Richard Cearn.

The church has a seating capacity of 600 and its appointments are elegant throughout. The main altar is already in position and is beautiful indeed. The side altars, to be in place soon, will be similar in appearance, though smaller in size.

The confirmation of a class will be included in the services tomorrow.

PRESIDENTS IN OREGON.

A subscriber inquires as to the number of presidents who have visited Oregon. Three presidents have come to this state. President Hayes first honored Oregon with his presence. He came down to Astoria by boat, accompanied by Mrs. Hayes, and was the only president who visited this city. President Harrison's visit was made memorable by the refusal of Governor Penoyer to greet him elsewhere than in the statehouse. The ovation tendered President Roosevelt far surpassed that in honor of either of the other visiting presidents. When President Hayes came to Astoria he was met at the Flavel wharf by a large crowd of citizens and escorted to the Occident, where he held a reception, shaking the hands of all who called on him. Mrs. Hayes was entertained by the ladies of the city, who were very much impressed by her kindly manner.

WILL FIT UP GYMNASIUM.

At a meeting of the directors of the Commercial club the secretary was instructed to call for bids for the construction of the elevated roadway which will connect the main clubhouse with the gymnasium in the Flavel building opposite. For the roadway plans must be furnished by the contractors. The gymnasium will be fitted up nicely and every possible convenience arranged for the members. A new floor will be put in and it is not improbable that shower baths will be installed. There are baths in the main building at present. The club has considerable apparatus and will purchase as much more as may be needed to make the gymnasium complete in every respect.

ANOTHER BIG HATCHERY.

Plant at Ontario to Be Largest in the State of Oregon.

An appropriation of \$20,000 for the establishment of a salmon hatchery at Ontario, Ore., was made by the last legislature. The appropriation became available yesterday, and the master fish warden may now proceed with the work of construction.

The hatchery site at Ontario is considered as the very best in the state. It was selected after much experiment, and the results attained from the temporary plant erected there have been highly satisfactory. Salmon ascend the river at Ontario in large numbers and the variety of fish hatched at that plant is what is known as the early salmon--fish which enter the river in May, June and July. The output at the Ontario hatchery last season exceeded that of any other plant, and Warden Van Dusen looks for excellent results there.

The appropriation for a fishway at Oregon City is also available now. This fishway will be put in to enable salmon to ascend the falls of the Willamette and proceed to the spawning waters. It is regarded as a most important improvement.

BUILDING BOOM AT SEASIDE.

Many New Cottages Are Being Erected at the Famous Resort.

Seaside is now enjoying a substantial building boom. Many new dwellings are in the course of erection there and the appearance of the town is being improved in many ways. The building of the new bridge across the Necanicum will be an improvement of value.

Residents of Seaside are preparing for a big rush to the beach this year. The popularity of the Oregon resort has grown rapidly, until now it attracts the great majority of seaside visitors. The efficient train service does much to augment the crowds, which are enabled to leave Portland at 2:30 p. m. and to arrive at Seaside at 7 on Saturdays. Many excursions to the beach have already been planned for the season.

THREE LUMBER CARGOES.

More Than Two and a Half Million Feet Out During This Week.

The schooner Churchill departed yesterday morning for San Francisco with a full cargo of lumber. She was loaded at the Knappton mills and carried 875,000 feet.

The steamer Robert Dollar arrived down the river from Westport with lumber and took a temporary berth at the Elmore dock. She is bound for San Pedro and takes 912,000 feet. It is expected she will put to sea in the morning.

The third vessel ready for sea is the schooner Forest Home. This vessel is bound from Portland to Taku Bar, China. She takes 867,181 of lumber, worth \$12,710.68, besides a quantity of other freight valued at \$1250, a total valuation of \$13,970.68.

SEATTLE STEAMER FINED.

The steamer Blanche, Captain Marshall, operating between Seattle and Tacoma, has been seized by the officials of the customs house and fined \$500 for carrying gasoline in violation of the revised statutes. Failing to pay the fine the vessel was placed in custody of an officer. She was allowed to proceed to Tacoma to discharge her cargo, but will be retained in custody until her owners satisfy the judgment.

ADMINISTRATOR NAMED.

In the probate court yesterday afternoon Judge Trenchard appointed Carl F. Johnson as administrator of the estate of the late Andrew G. Nelson, the Seaside rancher whose body was found on the hill near A. F. C. park a day or two ago. S. J. Hubbard, E. M. Grimes and F. H. Moore of Seaside were appointed appraisers of the estate. The property is valued at about \$1000.

**"Sailors' Home"
Now For Rent**

Operators Can Not Run It And Make Money And So Stop Business.

The local sailors' boarding house, known as the Sailors' Home has been closed up, and a large "For Rent" sign occupies a prominent place on the building. For a variety of reasons, the men interested in the boarding house determined to go out of business and hereafter sailors will be shipped from Portland.

At the last session of the legislature a bill regulating sailor boarding houses was passed. The measure imposed many restrictions and imposed a heavy license on runners. That bill became effective yesterday. About a month ago, in anticipation of the operation of the new law, the house was closed.

One of the men interested in the business said yesterday that no more shipping would be handled here by the boarding house men, but that all sailors would be contracted for at Portland. He expressed the conviction that the new law was framed in the interests of certain Portland people, and that it operated to the exclusion of those who sought to do business elsewhere.

The local boarding house was a business institution of some proportions, and it is said that the expenses of conducting it were fully \$10,000 yearly. The closing of the home will give the Portland runners absolute control of the situation, although it is not beyond the range of possibility that local parties may undertake to provide a partial crew for some needy skipper.

NEXT MONDAY'S SHOW.

Parents and others who have in charge the education and intellectual development of children, find so many objectionable features to the general exhibitional enterprises of the present day, that they hesitate to take them to places of amusement for fear that their budding minds may become contaminated, and the pleasures they may receive be more than counter balanced by the evil impressions which will be given them. Alvie to this fact, Norris & Rowe's shows are up to the high standard of previous years, although a complete company of circus acrobats, aerilists, riders, jugglers and clowns have been added to their enormous collection of trained animals and the aggregation augmented to fully twice the size of former years. The lesson of what kindness and patience will accomplish over the dumb brute can nowhere else be so thoroughly taught, and they will also be shown the wonderful results of perfect physical culture and by skillful and daring lady and gentlemen experts.
